We make lasting impressions.®

Introducing
a door that lives up
to our windows.

The ultimate patio **door.**

The Hinged Patio Door from Simonton features unmatched quality, durable construction, excellent energy efficiency, optimum security and it's remarkably easy to install. That's because our Hinged Patio Door combines proven, time-tested door engineering with all of the features that have made Simonton windows an award-winning favorite for years. And it's backed by the Simonton Impressions® industry-leading Double Lifetime Limited Warranty.

We make lasting impressions.®

THE STRONG, SILENT TYPE.

The Hinged Patio Door provides impressive strength, thanks to a rigid fiberglass structure and remarkably strong composite frame. Up to three times stronger than wood, it requires virtually no maintenance and

will never rot, crack, peel, warp, split, pit or corrode. The quality construction, along with a composite sill, jamb and header, eliminates water and air infiltration.

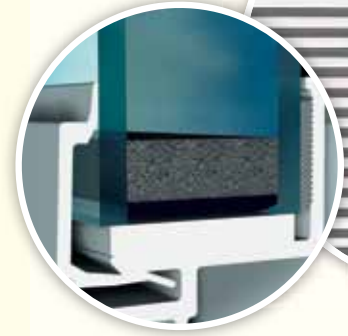

SAFE AND SECURE.

The Hinged Patio Door provides impressive strength for peace of mind. An advanced, multi-point locking system safely secures the door at multiple locations while preventing warping.

THE BENEFITS OF FIBERGLASS.

The Hinged Patio Door is crafted from reinforced fiberglass that is durable, energy efficient, strong and requires almost no maintenance. A specially designed foam core provides five times the energy efficiency of wood. The door can also be easily painted to match the color and style of virtually any home. And thanks to the minimum thermal expansion of fiberglass compared to other materials, it operates dependably year round.

EASY INSTALLATION.

The Hinged Patio Door is designed to be very easy to install. It's available in the most popular replacement sizes with a brick-mould or stucco fin accessory frame option to accommodate any style home. It also arrives fully assembled and finished with a premium, UV-inhibiting paint. Adjustable hinges simplify installation even more.

What else would you expect from the installation experts?

GREAT GLASS AND GRID OPTIONS.

The same great glass and grid options you love

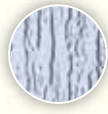

in Simonton windows are available in the Hinged Patio Door. So not only are you guaranteed the perfect match. The Hinged Patio Door comes standard with energy-efficient Low E/Argon-filled glass and the Intercept® spacer system.

Upgrade to a 1" I.G. unit with a warm-edge spacer system to maximize your energy savings. Cardinal's

LoE³-366® can be selected for even greater thermal performance. Spectrally selective LoE³-366® glass offers the ultimate in solar heat control, fade protection, visibility and energy savings. You can also opt for between-the-glass blinds that will increase privacy and allow just the right amount of light into your home.

LASTING IMPRESSIONS.

Since 1946, Simonton has taken pride in handcrafted quality. Building our reputation one window and door at a time by offering the type of care and commitment we believe every home deserves. Imagine thousands of skilled artisans utilizing some of the most advanced technology in North America. Imagine a quality control system dedicated to perfection and a nationwide manufacturing process designed to translate maximum thermal dynamics into affordable price. The results would be extraordinary – and they are. Without question, every Simonton window and door represents the highest standards in the industry. When you choose Simonton, you choose a company that understands your needs, and is committed to exceeding your expectations. At Simonton, we make more than windows and doors. We make lasting impressions.® On your home. On your family. On your life.
